# DISRUPTION

We are facing an unprecedented global emergency.

The Government has failed to protect us.

To survive, it's going to take everything we've got.

We are protesting to persuade the government to take emergency action on the Climate and Ecological crisis.

We have entered a period of abrupt climate breakdown, and are in the midst of a mass extinction bigger and faster than the one that killed the dinosaurs.

If we continue to ignore the current environmental situation we will experience an unprecedented level of disruption within our lifetimes.

We face floods, wildfires, extreme weather, crop failure, mass migration and the breakdown of society.

*The time for denial is over. It is time to act.*

Thank you for understanding.

**extinction  
rebellion**

We have three demands:

- 1/ The Government must *tell the truth about the Climate and wider Ecological Emergency and work alongside the media to communicate with citizens*
- 2/ The Government must enact *legally binding policy measures to reduce carbon emissions to net zero by 2025 and reduce consumption of resources to below half of sustainable levels*
- 3/ A national *Citizen's Assembly* to *oversee the changes, as part of creating a democracy fit for purpose.*
